

The following is taken directly from the Official Bulletin Board:

May 9, 2007

NOTICE TO ALL HOMEOWNERS

Per our governing documents, and additions or alterations to your home or property, requires approval from the board of directors before any work is started.

The process is through the Architectural Review Committee (ARC).

Before you start your project you must come in to the office and fill out an ARC form and provide a drawing, including dimensions, colors and full description of the work you intend to have done. We may require additional input from you and will advise you of what we need. We try to respond to all ARC submittals within 7 (seven) business days, but we do have 30 days by law to respond. Please plan your work accordingly.

All owners must sign the ARC form. County permits may be required, please have them available if needed.
